“Symphony”

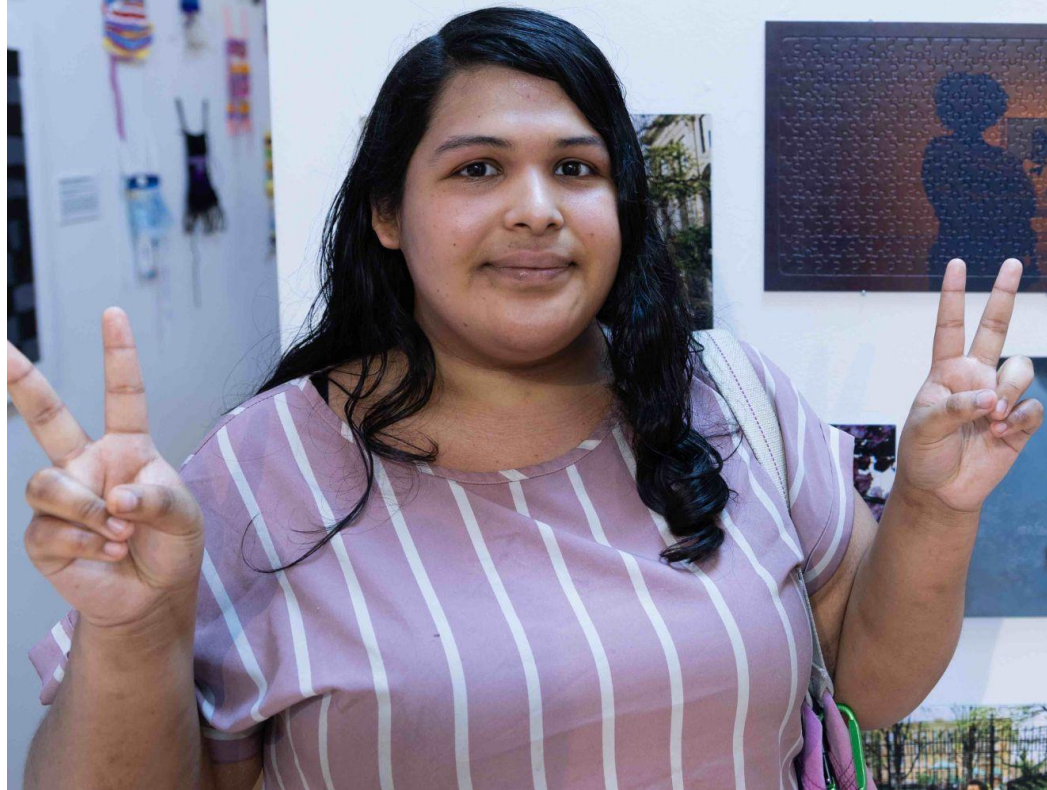

AHL Foundation
July, 2026

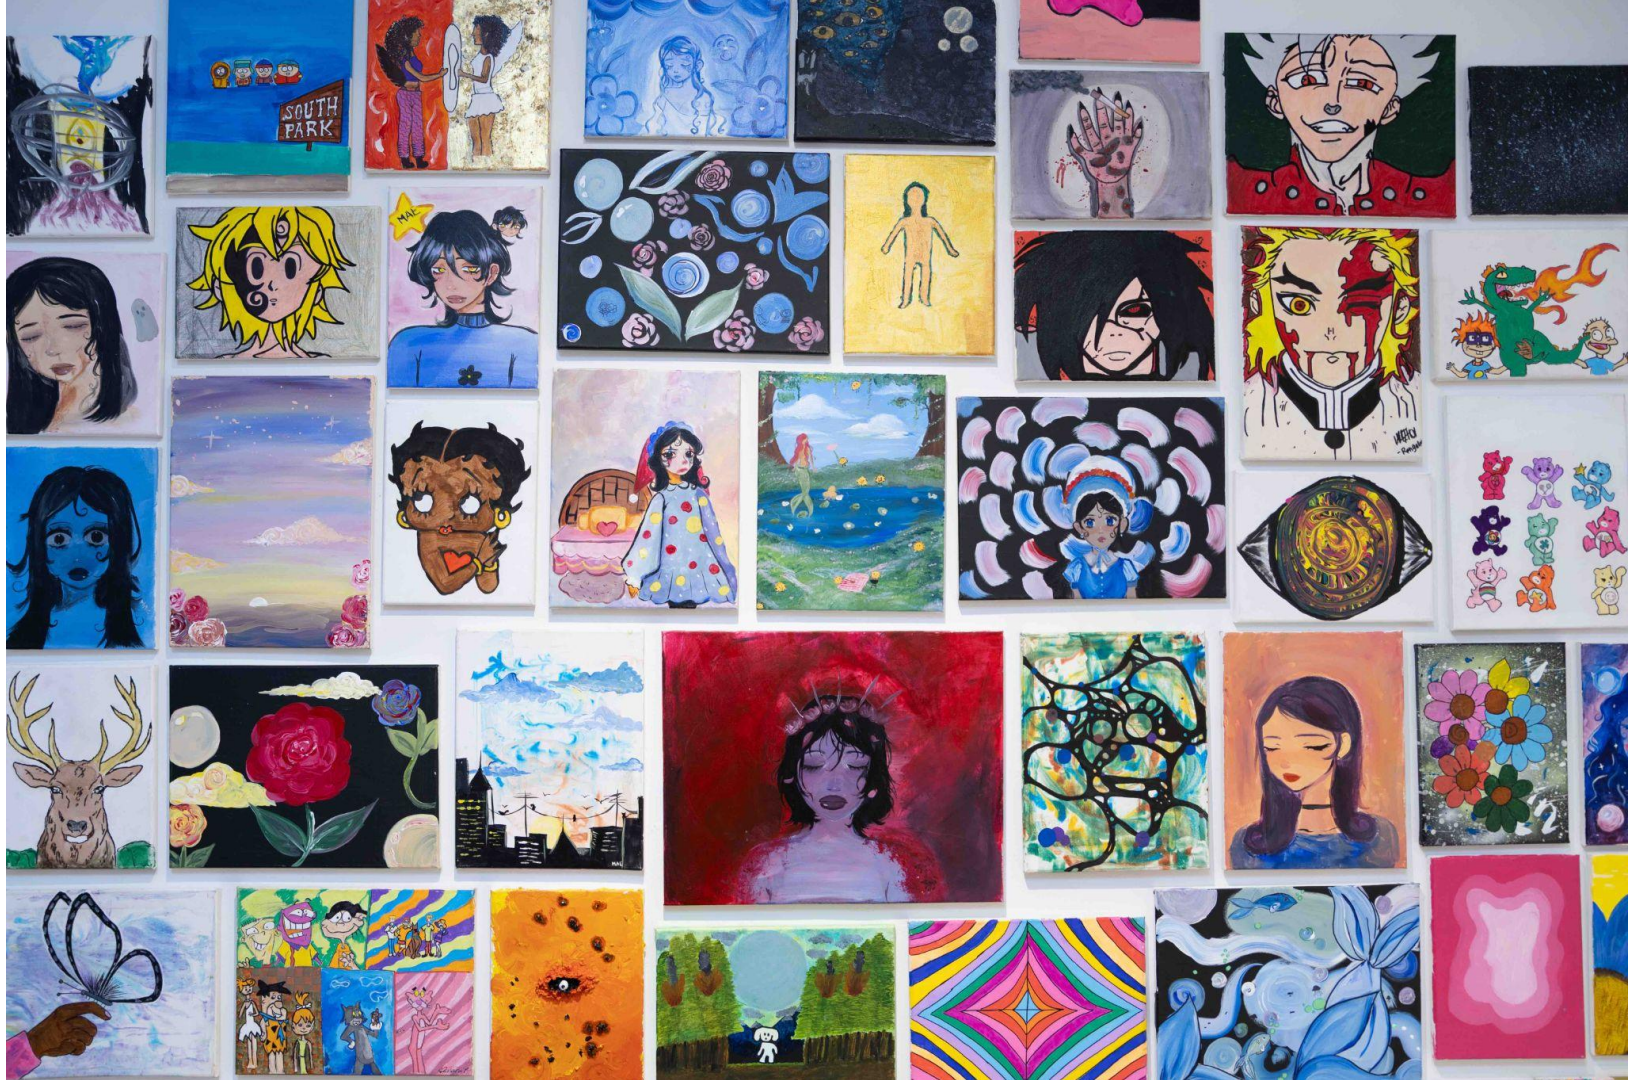

Nightmares, Reflections
The artist's work is a reflection of the world we live in today.

How we give together the world
The world is a complex web of relationships and interactions. It is a place of constant change and growth. The artist's work is a reflection of this world, capturing the beauty and the horror of it all. It is a place where we can find ourselves, and where we can find the things that we need to survive.

ony

from Artistic Noise

occurs when everyone comes
create something beautiful. We're
g a space to showcase our own
ploration. We are co-existing,
st, and learning to be vulnerable.
the time to get to know us
r art.
